

PATCH/TEST EXECUTABLE TEST PLAN

ECS System Integration and Test

Patch/Test Executable Name/ID: 6A.06_CLS.01A_Patch			Patch Delivery Date : 8/16/02 Patch Installation Date: 8/19/02 EDG/non-ECS values available: 8/26 Install Location/Mode: PVC/VAT OPS		Lead Engineer: D. McCartney	
NCR ID/Name (Attach if list): 34761 "SUR: UPG Needs to Accept Non-ECS Sites" Sev.2 OPS_CLS -Verified			Footprint: (Description of delivery and affected subsystems) Requires specially configured EDG Tool, the DAAC and SMC user account capabilities, and the DAAC search and order servers.			
Test Objectives (Functional/Performance/Regression/Recovery)/New Functionality Ops Concept(s): Verify that the new non-ECS HomeDAAC values included in new account requests can be processed and stored by the SMC and DAAC CLS User Profile Gateway and MSS account servers and databases. The values should be made available for use in search and orders by ECS account users.						
Test Location/Modes/Tools: PVC/OPS/String 2 (S8) mode VATC/OPS/ Test SMC (t0mss01, t0ins01)			Test Data			
Development POC: Jim Hug Submitter POC:			Other Test Execution Needs: (Personnel, etc.) Current internal or external EOS Data Gateway (EDG) configured as the new non-ECS DAACs			
REQUIRED DATE (IF ANY): ASAP						
Planned Completion Time/Date: (Including Preparation Time) DAYS: 2 HRS: DATE						
Planned High-level Test Approach (By NCR, if applicable)						
Inputs/Actions:		Outputs/Expected Results:			Comments:	
<ol style="list-style-type: none"> Coordinate with EDG team to change the HomeDAAC value in sequence to <ul style="list-style-type: none"> ◆ ASF ◆ DRL ◆ ISA ◆ JPL. With each HomeDAAC value, use the EDG Tool verify the following <ul style="list-style-type: none"> ◆ Create an account ◆ Change the account password ◆ Log in with the account name Using the Test SMC ECS Account Management GUI, verify the following: <ul style="list-style-type: none"> ◆ Account is created with expected HomeDAAC ◆ Account can be modified ◆ Account can be deleted Using the Test DAAC ECS 		<ol style="list-style-type: none"> Value is automatically included when the EDG Tool is used to create an ECS account The actions have the expected responses and these are consistent with the responses of the ECS DAACs. The actions have the expected responses and these are consistent with the responses of the ECS DAACs. The actions have the expected 			<p>EDG Team will change the EDG PVC/OPS HomeDAAC value as directed by the ECS Tester.</p>	

<p>Account Management GUI, verify the following:</p> <ul style="list-style-type: none"> ◆ Account is displayed with expected HomeDAAC <p>5. Using EDG with one of the new HomeDAAC accounts, do a search and submit an order for ECS data.</p>	<p>responses and these are consistent with the responses of the ECS DAACs.</p> <p>5. The order and correct HomeDAAC appear in the ECS Order GUI.</p>	
<p>List of Planning Attachments (Procedures/data/etc.): Will be attached to filed test procedure</p>
